May 31, 2006

Honorable Mayor and City Council:

Attached for your consideration and adoption is the City Manager's recommended budget for Fiscal Year (FY) 2006-2007. The budget contained herein outlines the proposed programs, projects, services, and activities for the upcoming year along with the revenue and expenditure assumptions required to support these activities.

You will be pleased to note that, for the second year in a row, the proposed recommended General Fund budget is balanced without requiring the use of General Fund reserves. The theme for the previous year's budget (FY 2005-06) was to stop and eliminate the previous rollovers of imbalances to future years. This was accomplished in FY 2005-06, and will be accomplished again in FY 2006-07. The combination of moderate revenue growth, significant restraint in spending, and the application of best contemporary municipal management practices has enabled staff to present to you this balanced budget.

Budget Theme and Principal Objectives

The well-known biblical story of Joseph can be seen as a management parable. In the story, Joseph, who is in prison, provides sage management advice to the Pharaoh. As a result of his insightful advice, he is freed from prison and appointed the Pharaoh's Viceroy. His advice to the Pharaoh? Set aside reserves during good times to have sufficient provisions in the bad times. While most municipal managers adhere to this basic principle, the key to its execution is the ability to discern the good times from the bad. It is difficult to know with assurance if one is in an expanding economy in which case reserves should be built up, or in a retreating economy in which case growth in reserves is minimized.

Although some will debate the point, economic indicators suggest that California and Lodi are in an expanding economy. According to the various media outlets, the State is likely to take in at least \$5 billion more in personal income tax revenues than originally estimated. The Gross State Product, the broadest measure of economic output, grew 5.6% in 2004. According to the U.S. Bureau of Economic Analysis, this was the seventh highest percentage increase in the nation. The number of jobs in California grew last year by 1.6%, the highest rate in several years.

Estimates of Lodi's largest traditional recurring General Fund revenue sources indicate moderate economic growth. Sales tax is expected to increase a conservative 7%, property tax by 11.5%, (due primarily to the end of the growth of ERAF shift), and motor vehicle fees should grow by 7.9%.

However, when the economy is expanding, and one still finds it difficult to increase reserves to minimum prudent standards, meet historic service levels, or adequately fund deferred maintenance and replacement, that is cause for concern. Long standing City policy calls for a minimum of a 15% undesignated reserve for the General Fund. Pursuant to this policy, Lodi should have an undesignated General Fund reserve of approximately \$7 million. The FY 06-07 budget projects a year-end

undesignated reserve of \$1.5 million, \$5.5 million below the minimum level. This minimum reserve is needed to respond to natural disasters - let alone what should be reserved to cover budgetary shortfalls between revenues and expenses.

The General Fund is only one of several funds or accounts in which the City should have a greater amount of funds on hand or held in reserve. The current unfunded balance for vehicle replacement is approximately \$7 million. In the March 2006 "white paper" on the City's financial challenges, it was estimated that \$2.86 million additional should be spent on maintenance over the City's current expenditures in order to achieve preferred maintenance levels. Additionally, the City should be setting aside \$2.1 million annually for facilities replacement, which it currently is not doing.

There is no better time than the present to begin to set aside funds to address the City's limited financial reserves.

A goal of this budget is to build reserves while attempting to restore service levels to previous years' standards. This is a conservative budget. By preparing a conservative budget, it protects against the risk of expenses exceeding revenues, but still provides the opportunity, that through conscientious cost control, any year-end variances between projected revenues and expenses, will be favorable and will increase the year-end fund balance.

A step towards establishing adequate reserves for vehicle replacement is made in the FY 06-07 budget. Within the General Fund, \$346,940 has been budgeted as seed money for vehicle replacement and \$473,317 in total for all funds. This represents approximately 5% of the Vehicle Replacement Sinking Fund Target for the General Fund and less than 5% for all other funds. The total number of "rolling stock" units the City has, excluding Transit Fund vehicles" is approximately 260 units. Clearly the City has a significant investment in vehicles that it needs to replace and maintain. The vehicle/equipment master list is included as an exhibit in the budget.

A goal of this budget is to restore staffing. While 24 General Fund positions will be mandated to remain vacant, the number of sworn Police Officers, (with the exception of one detective position and a grant-funded officer), will return to the pre-2005 level, three new Firefighters are proposed to be hired, one per shift, to provide more efficient fire operations. Key management positions in Public Works (Water/Wastewater Superintendent) and Electric Utility (Manager of Engineering & Operations and Manager of Rates & Resources) are proposed to be filled. The Planning Division is proposed to be fully staffed.

A goal of this budget is to emphasize environmental issues. Greater progress is being made in PCE/TCE remediation and funding the above mentioned Water/Wastewater Superintendent position. Although the costs have been encumbered during the previous fiscal year, it is expected that major progress will be made toward the development of a new updated Comprehensive General Plan during the course of FY 06-07. It is hoped that a conceptual Green Belt Separator will come closer to reality this year.

A goal of this budget is public safety. Together the Police and Fire Department represent 52% of the General Fund budget. The Police Department's budget is proposed to increase by \$1,347,000 (10%), and the Fire Department by \$229,000 (2.7%).

Within the context of the allocated Fire Department budget, three new Firefighters and three new Fire Engineer positions are proposed. The costs of the additional Firefighters and Engineers will be directly offset against reductions in the Fire Department's overtime budget.

With the exception of a grant-funded position and a Detective, all sworn Police Department personnel have been budgeted.

This budget shows a reduction in the City's General Fund contribution to private development. General Fund support for the Community Development Department has been reduced by \$50,000.

All Funds

The All Funds Budget, (the total expenditures from all proposed budgets, General Fund, Enterprise, Internal Service, etc.) for FY 06-07 is \$203,402,690. One should note that the City's "true" expenditures are less than the All Funds Budget due to transfers between funds being counted twice. Nevertheless, the All Funds Budget calculation can serve as a valuable measuring standard. The largest expenditure within the All Funds budget is Electric Utility at \$73,314,000, which represents 37% of all funds the City spends. This is followed by the General Fund, \$44,023,530 that represents 22% of all expenses.

The proposed City-wide budget includes 491 full-time positions, of which 43 are mandated vacancies, and approximately 51 full-time equivalent (FTE) positions accounting for approximately 252 part-time employees. In total, the City's total budgeted workforce equals approximately 499 full-time equivalent positions.

A total of 24 previously authorized General Fund positions representing \$1,518,021 in personnel costs will continue to be held vacant for FY 06-07. An additional 19 positions representing \$1,676,117 in costs will be left unfilled in the Electric Utility Department to balance EUD's budget.

The City's capital expenditures are limited. Electric Utility's capital budget is focused on line extensions and improvements to existing substations. Water funds will be spent on capital projects related to PCE/TCE remediation. Approximately \$1,181,000 is projected to be spent in Central Plume remediation. Other plumes account for approximately \$1,914,000 in expenditures, and legal fees are estimated to account for \$2,312,500 in FY 06-07. Wastewater anticipates proceeding with Phase III of the White Slough Project in order to regain 8.5 Million Gallons per Day (MGD) capacity. This will require an approximate \$31 million capital.

Through State Park Bond funds, Parks and Recreation is planning improvements to approximately five parks to include Beckman, Glaves, Kofu, Legion, and Peterson Parks.

General Fund debt service payments will total \$1,675,547 to pay principle and interest for the 2002 Certificates of Participation which funded the Police Station, Hutchins Street Square, and downtown capital improvements.

This year it is recommended that the City lower its Self-Insured Retention (SIR) from \$500,000 per incident to approximately \$250,000 per incident via insurance coverage. The City has not updated its SIR since the height of the municipal liability crisis 20 years ago. It is estimated that the City will save no less than \$122,000 with a 13% reduction in its liability reserve while at the same time reducing the City's risk exposure. For the time being, the City will maintain its current balance of \$5.2 million as a reserve for General Liability claims and Workers Compensation.

Increased fuel costs will impinge on the budget. In total, \$540,000 has been budgeted for fuel, \$235,000 (43.5%) more than last year.

General Fund

The proposed General Fund Expenditure Budget is \$44,023,536.

The Police Department is the largest General Fund budget. It accounts for 32% of all General Fund expenditures with a budget of \$14,240,000. This is a \$1,347,000 (10%) increase over the FY 05-06 budgeted expenditures. With the exception of a Detective and grant-funded position, the Police Department has been restored to full funding for all sworn positions. Additionally, pursuant to the Memorandum of Understanding (MOU) between the City and the Police Officers Association of Lodi, a

pre-approved salary increase has been budgeted. This accounts for the majority of the Police Department's budget increase. Like many departments, the Police Department provides services through its personnel and personnel costs account for 91.3 percent of the Police Department's budget.

The second largest General Fund budget is the Fire Department with a budget of \$8,592,000, or 20% of the General Fund. This is a \$229,000 (2.7%) increase over the FY 05-06 budget. Of note is the proposal to hire an additional three Firefighters, one for each shift and to promote three Firefighters to Fire Engineer positions. Currently, the Fire Department has 59 authorized public safety positions. This proposal will increase the number to 62 which will provide better coverage and reduce overtime. The net effect upon the Department's budget is zero as the additional full-time personnel costs will be offset through a reduction in overtime costs.

In order to track and account for activities related to emergency preparedness, costs related to emergency preparedness and operations of the City's Emergency Operations Center have been segregated within the Fire Department's budget. The importance of emergency preparedness as an essential City service has increased since 9/11 and last year's devastating hurricanes. The total budgeted for emergency preparedness for FY 06-07 is \$304,400.

The General Fund budget allocation to Community Development will be reduced by \$50,000 to an allocation of \$300,000. The Community Development fund created as a part of the FY 05-06 Budget is projected to have an undesignated reserve at year-end of 07 in the amount of \$47,700. This reduction is intended to reduce the contribution towards subsidizing private development. The total Community Development Department budget is \$2,128,000.

The City is continuing its commitment to provide direct cash support for Economic Development purposes. However, the budget proposes to establish a relationship between the various organizations receiving financial assistance. In total, \$214,603 is proposed. Arts Commission Grants and the Downtown Lodi Business Partnership are proposed to receive an equal amount of \$35,300. The Lodi Conference & Visitors Bureau is also proposed to receive a like base amount. However, the Conference & Visitors Bureau has traditionally received a greater amount.

Now that an assessment is in place it is proposed to reduce the payment over the base amount by equal thirds. For this year, the total recommended contribution to the Conference & Visitors Bureau is \$94,100. Support for the Chamber of Commerce equals a standard membership payment of \$1,903. Fourth of July has been budgeted at \$18,000. The San Joaquin Partnership has a requested a budget allocation of \$30,000; however, if the Council should choose to budget this amount, staff anticipates discussion with the Partnership staff concerning specific work related to Lodi prior to the release of these funds.

Water and Wastewater Funds

Wastewater is projected to have an unrestricted cash reserve as of June 30, 2007 in the amount of \$787,104. Based upon the goal of 15%, Wastewater should have \$6 million of unrestricted cash in reserve.

The Water Fund is projected to have an unrestricted reserve of \$829,000. Based upon the goal of 15%, Water should have nearly \$2 million of unrestricted cash in reserve.

Streets

The FY 06-07 budget shows Streets as its own fund with earmarked revenue sources.

Of note this year is a possible new revenue source for Streets, Proposition 42. In 2002, voters approved an additional gas tax for transportation projects by 70%. However, Proposition 42 contained a provision that allowed the Legislature to divert funds to non-transportation expenses. The State used this provision

to divert street and road funds to the State's General Fund. Now, finally, the State is considering restoring Prop. 42 funds. If restored, Lodi is expecting to receive an additional \$261,050 for local streets.

Electric Utility

FY 05-06 was a difficult year for Electric Utility. A necessary rate increase was adopted. Even after the rate increase, revenues were lower than expected and power supply costs continued to be more than budgeted.

I am pleased to report that the FY 06-07 budget is balanced without the use of reserves. However, the Utility will remain short of its financial reserve and liquidity goals. It will need to be closely monitored.

Several steps have been taken to improve the financial prospects of the Utility. Bulk power has been secured for the entire year to increase cost certainty. A total of 19 positions will remain unfilled. New oversight requirements including a quarterly report to the City Council, a management Risk Oversight Committee, and a Risk Management Plan have either been adopted or instituted.

The In-lieu transfer from Electric Utility to the General Fund is no longer a floating percentage of the Utility. In the past, the In-lieu transfer was set by policy at 12%. The current proposed in-lieu transfer for FY 06-07 seeks to limit the amount of funds transferred to more accurately reflect a conservative cost of services calculation. The transfer is approximately \$6,779,000, or a little over 10% of total revenues. The transfer for FY 06-07 is a 3.4% increase over the budgeted in-lieu transfer for FY 05-06.

Personnel

The City delivers services via its personnel assets. Therefore, personnel costs represent a significant cost within the Budget. In total for the General Fund, personnel costs and benefits represent 76% of the General Fund expenditures for FY 06-07. This is a 1% increase over FY 05-06 when personnel and benefit costs represented 75% of General Fund expenditures.

Total FTE positions budgeted to be filled for FY 06-07 are 499. There are 23 positions proposed for changes, addition, or elimination. Of note, are the following positions:

- Three new Firefighters
- Three Firefighters changed to Fire Engineers
- A title change with no impact to pay for the City Planner to Planning Manager
- A title change with no impact to pay by adding Deputy Public Works Director to the City Engineer's title
- The elimination of the Water Conservation Officer position
- The adding of the requirement that the Water Services Manager must be a Registered Engineer

An alternative position was created and filled in FY 05-06 that backfilled the need for the Accounting Manager and the Customer Service and Revenue Manager.

Maintaining frozen positions will still be used as a cost savings device this fiscal year. A total of 43 positions will remain unfilled representing a cost savings of \$3,194,100.

It is expected that the City will enter into new labor contracts with two bargaining units during FY 06-07, Mid-Managers and IBEW. Four other labor contracts are scheduled to expire just prior to the beginning of the fiscal year. Based upon recent precedent, these bargaining units will be asked to extend contracts for one year.

Work Plan and Future Issues

Progress has been made on the Manager's Work Plan. In the area of economic development, wineries are beginning to appear downtown, and the viability of a downtown hotel has been researched. The General Plan update is underway. The purchasing system has been updated. A Council handbook has been adopted. PCE/TCE clean-up is underway. A vehicle replacement program will begin with the adoption of the proposed budget.

The future of the Grape Bowl remains undecided, but a group of dedicated volunteers continue to explore the options available. Based upon the possibility of a development agreement, DeBenedetti Park is expected to have an identified funding source. A new Code Enforcement program has been adopted to provide a broader range of tools to address Code violations.

Of greatest concern is the possibility of a reduction of water rates established to pay for PCE/TCE environmental contamination-related costs. If water rates are rolled back, it is assumed that \$3 million will need to be identified to fund the remediation program. This expense will be borne by the General Fund as there is no other revenue available. Considering that the entire Community Center and Recreation expenditure budget is just over \$3 million, without accounting for the revenue that these programs generate, all expenditures for the Community Center and Recreation could be eliminated and still there would be insufficient resources to pay for a \$3 million annual remediation program cost.

Budget and Finance Committee

On May 18th a Final of the budget, as complete as possible at the time, was presented to the Budget and Finance Committee. The Committee reviewed the basic themes of the budget and was asked to make a recommendation to the Council on the following three questions:

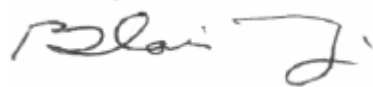

- 1) The amount and distribution of Direct Cash Donations – the Committee endorsed the Manager's recommendation;
- 2) Should the part-time Youth Commission Liaison position be retained or eliminated – retained;
- 3) Should 6 Firefighters plus 3 Fire Engineers be added to the budget of 3 Firefighters plus 3 Fire Engineers – The Committee favored 3 Firefighters plus 3 Fire Engineers.

Conclusion

This will be a challenging year. There is much to accomplish. Nevertheless, Lodi has many reasons for optimism. Lodi is blessed with involved citizens, good jobs, quality housing, recreational opportunities, and quality public services. I look forward to working with the City Council on the challenges that face us with the confidence that innovative solutions can be crafted to ensure that our city remains vibrant and viable for many years to come.

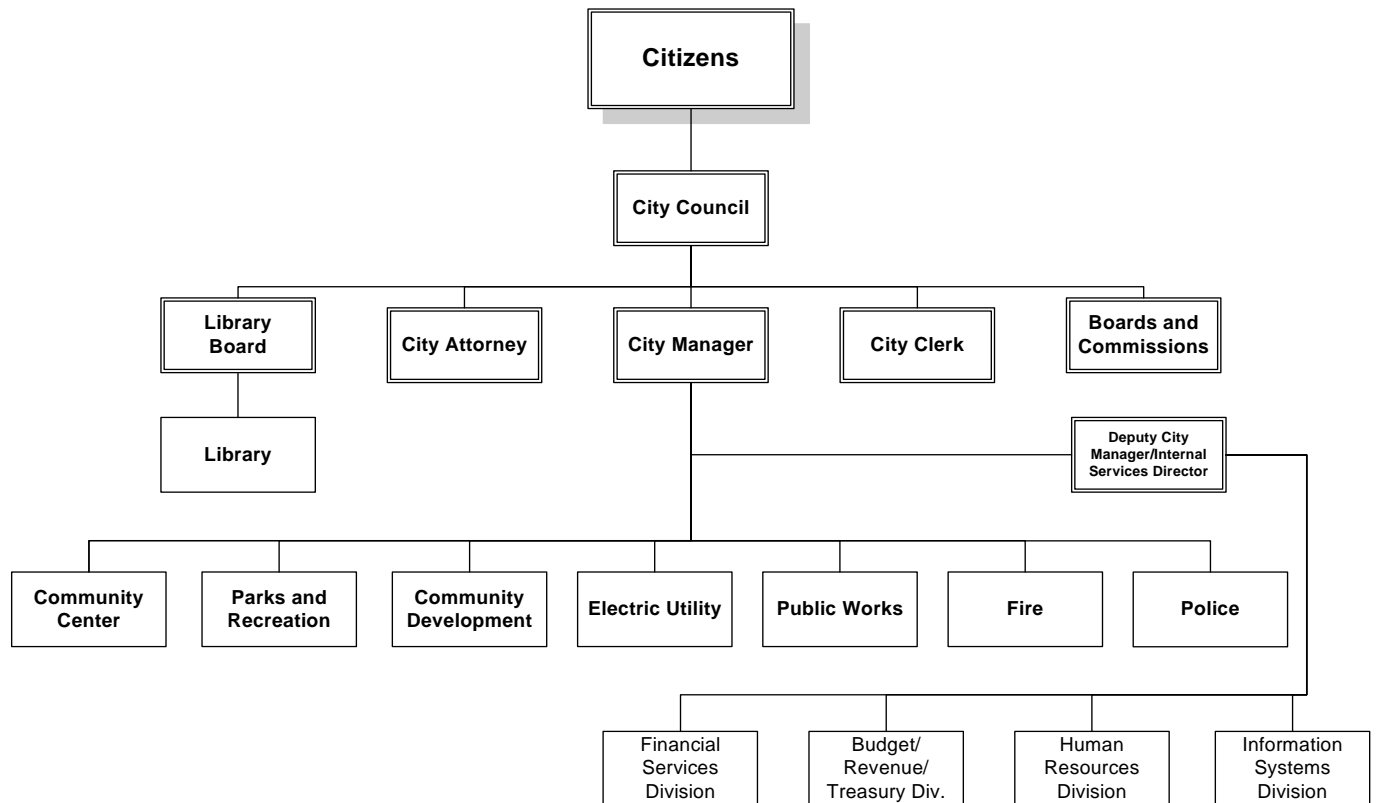

I would like to thank the City staff that assisted in preparing this budget document. The budget required the assistance and cooperation of all departments; however, Jim Krueger, Janet Hamilton, Kevin Bell, Ruby Paiste, the Finance and the Human Resources staff deserve specific recognition.

Sincerely,

Blair King
City Manager

PUBLIC SAFETY

ACTIVITY: Police Operations
DEPARTMENT: Police

PROGRAM: Police Protection
FUND: General Fund

ACTIVITY DESCRIPTION

The Police Operations activity maintains public order, apprehends law violators, incarcerates criminals, and enforces traffic regulations. Activity goals are: 1) general public compliance with local, State and Federal laws; 2) timely response to calls for service; 3) safe and efficient traffic circulation; 4) freedom from crime for citizens and visitors to the City; and, 5) successful suppression of criminal conduct. This activity has six major elements:

- **General Patrol:** Provide area patrols (vehicle, bicycle and foot patrols) for suppression and detection of criminal activity; provide general assistance to citizens and visitors to Lodi; respond to service calls; apprehend law violators; participate in special projects directed at resolving particular community problems, utilizing various resources available in community.
- **Traffic Patrol:** Provide traffic patrols to enforce local and State traffic and vehicle regulations; issue citations; respond to traffic accidents; and, enforce local parking regulations.
- **Extraordinary Police Response:** Respond to major disturbances and high-risk incidents, arrests, and searches (includes use of SWAT and bomb Investigators).
- **Auxiliary Police & Cadet Program Administration:** Recruit, train, coordinate and mobilize volunteer Officers based on the demand for service and staffing requirements
- **Crime Prevention:** Coordinate crime prevention efforts, Neighborhood Watch and participates in special community events
- **Animal Services:** Coordinate Animal Services, including the pick-up and care of stray animals; as well as the day-to-day functions and maintenance of animals at the Animal Shelter. Coordinate new Animal Shelter design and construction to meet demands of today and into the future.

MAJOR ACCOMPLISHMENTS

- Implemented a Police Cadet Program.
- Realigned Patrol Sectors to include a 5th Beat Alignment, which is staffed on a limited basis
- Expanded Community Oriented Policing: the Lodi Police Department works closely with the Lodi Boys & Girls Club, the Chamber of Commerce and various other service organizations as a way to expand our contacts throughout the community. Several members of the Police Department hold offices in these, and other, local service organizations. We also addressed Community Oriented Policing via our District Commanders' interaction with citizens in their sector and internal accountability.
- Promoted Community Partnership: Our District Commanders actively engage citizens within their sectors to get input and ideas on areas of concern. LPD then works with those citizens to positively resolve those issues.

MAJOR OBJECTIVES

- 2006-07: Continue advancement of our Community Oriented Policing strategies
- 2006-07: Continue to promote Police-Community Partnerships
- 2006-07: Partner's & Community Development to work together on Code Enforcement & Education issues

PUBLIC SAFETY

ACTIVITY: Police Support Services
DEPARTMENT: Police

PROGRAM: Police Protection
FUND: General Fund

ACTIVITY DESCRIPTION

The Police Support Services activity conducts investigations of felony crime; develops and maintains case records, reports and evidence; maintains records and reports on criminal activity and persons; crime suppression; operates and maintains the City's emergency communications and dispatching services. Activity goals include: 1) early identification, suppression and/or arrest of felony crime and persons; 2) timely investigation of crimes and criminal activity; 3) successful prosecution of apprehended criminals; and, 4) freedom from crime and criminal activity for citizens and visitors to Lodi. This activity has eight major elements:

- **General investigations:** Conduct and coordinate investigations of felony and some misdemeanor crimes or criminal activity; develop case records and reports; obtain and secure evidence; conduct follow-up investigations as required; and make arrests.
- **Special Investigations Unit:** Serves as a resource for Community Oriented Policing. Develop programs to promote responsible and constructive activity and citizenship and respond to community concerns and issues regarding neighborhoods and gang activity.
- **Administrative Unit:** Police Sergeant and Corporal conduct in-depth background investigations on new hires; internal affairs and administrative investigations; internal inspections and audits; coordinate in-service training as well as POST mandated advanced officer training at school sites throughout the State. Redirect focus for this administrative unit to create Office of Professional Standards.
- **Records Unit:** Update and maintain case reports, arrest records and criminal records; and provide information to other agencies and public as required.
- **Court Liaison:** Coordinate and prepare documents, reports and evidence for courts.
- **Property Unit:** Receive, catalog, organize and maintain evidence obtained during criminal investigations for prosecution of criminal offenses.
- **Jail Services:** Receive, process, hold, care and feed prisoners booked into the Lodi City Jail.
- **Communications Unit:** Receive, route and assign 9-1-1 calls for public safety services; dispatch and coordinate the public safety response; maintain records of communications activity.

SIGNIFICANT EXPENDITURE AND STAFFING CHANGES

Positions will remain unfilled as retirements and staffing changes occur.

PUBLIC SAFETY

ACTIVITY: Police Support Services
DEPARTMENT: Police

PROGRAM: Police Protection

PUBLIC SAFETY

ACTIVITY: Animal Shelter
DEPARTMENT: Police

PROGRAM: Police Protection
FUND: General Fund

ACTIVITY DESCRIPTION

The Lodi Animal Shelter activity is responsible for controlling dogs and cats; impounding of loose, stray or unwanted animals; adoption of animals; disposal of dead animals found on City streets; and recording and reporting animal bites and suspected cases of rabies. Activity goals include: 1) responsible control of dogs and cats by owners; 2) enforcement of City's animal control ordinances; and, 3) timely response to calls for assistance. This activity has two major elements:

- **Animal Control:** Enforcement of the City's Animal Control Ordinances; and removal of dead animals found on City streets.
- **Animal Shelter:** Collecting, returning and disposing of lost and stray animals found on City streets and parks; promoting adoption of unwanted pets.

MAJOR ACCOMPLISHMENTS

- Implemented a vaccination program, within the Shelter, for puppies and kittens.
- Increased the capacity of the Animal Shelter with the addition of office space in a temporary trailer.

MAJOR OBJECTIVES

- The Animal Shelter will continue to work diligently to promote a positive public image with the citizens of Lodi.
- Continue to work on increasing adoptions of dogs and cats
- Promote the importance of spaying and neutering pets to avoid the unnecessary euthanasia of animals due to overpopulation.

ACTIVITY DESCRIPTION

The Business Planning and Marketing Division is responsible for the management of the utility's resource planning efforts, rates, budgeting, legislative/regulatory activities, customer field services and Public Benefits. Activity goals include: 1) providing reliable power at the lowest practical cost in accordance with sound business and engineering principles; 2) rate design and analysis; 3) power supply planning/marketing; 4) active participation in legislative/regulatory advocacy programs and 5) development and administration of Public Benefits programs in compliance with AB1890. This activity has four major elements:

- **Resource development, acquisition and operation.** Develop, acquire and monitor power generation and transmission resources in accordance with forecasted City needs. Provide forecasted bulk power cost analysis for incorporation into the Department's budget process. Identify excess resources available for potential wholesale marketing. Market excess resources and develop new electric services and financial products as required. Develop and maintain the Department's Risk Management Policy for energy trading process, procedures, limits, authorities, and coordination with Joint Power Agency (JPA) **(25% of Activity)**.
- **Financial planning and rates.** Provide forecasted revenue and customer usage analyses for incorporation into the Department's budget & financial processes. Develop/maintain competitive electric rate and service schedules to achieve revenue requirements. Collect and translate load research data for system analysis, cost-of-service, and time-of-use billing determinants. Coordinate the Department's budget process and participate in the development and monitoring of JPA budgets. Monitor local electric and JPA capital projects and make recommendations for project financing/refinancing in accordance with applicable federal, state and city guidelines. Coordinate related Department activities with Finance Department **(25% of Activity)**.
- **Legislative and regulatory advocacy.** Maintain a proactive approach to the continuous challenges municipal utilities at the state and federal level. These challenges include ongoing efforts to erode local control through new mandates and reporting requirements, many which could have negative rate impacts on our customer/owners. Maintain a presence at both the state and federal level with the legislature and the joint advocacy activities of CMUA and NCPA. **(25% of Activity)**.
- **Customer Field Services and Public Benefit Programs.** Responsible for electric and water utility meter reading. This section is also responsible for "service shut-off for non-payment" and turn-on services for new or re-established accounts. Identifies customer concerns and needs as they apply to electric services and implements appropriate solutions. Responsible for the delivery and maintenance of the Public Benefits Program, a state-mandated program. Incorporated with this program are energy conservation/efficiency efforts, assistance to low-income customers, renewable energy resources, and energy research & demonstration projects. **(25% of Activity)**

SIGNIFICANT EXPENDITURE AND STAFFING CHANGES

2006-07: Restructure Customer Field Services

MAJOR 2005-06 ACCOMPLISHMENTS

- Established new market cost adjustments (short-term) in response to the utility's operating deficit
- Adopted a five-tier residential rate schedule and true-up of all rate classes incorporating the market cost adjustment into rates
- Procured energy to fill the utility's net open position for FY06 and FY07
- Adopted an Energy Risk Management Policy
- Increased legislative and regulatory activity in response to intrusions on local control at both state and federal level
- Provided six Lodi Energy Smart Workshops to the general community; completed 75 residential energy audits and 35 commercial energy audits; energy efficiency rebates were paid to over 1,500 residential, commercial and industrial customers; and provided 32 energy efficiency/electric safety presentations to students in grades K-12;
- Participated in an NCPA-wide "Public Benefits Program Measurement & Verification Study" (study was to determine the overall effectiveness of our various customer rebate programs);

PUBLIC UTILITIES

ACTIVITY: Business Planning and Marketing
DEPARTMENT: Electric Utility

PROGRAM: Electric Services
FUND: Electric Fund

- Enhanced the key account services program to all commercial and industrial customers; including co-sponsorship of the 2006 Energy Efficiency Initiative for large energy users in Lodi.

MAJOR 2006-07 OBJECTIVES

- Continue to address proposed legislative and regulatory initiatives
- Provide at least six Lodi Energy Smart Workshops and develop specific energy conservation workshops for commercial and industrial customers;
- Provide a “solar home tour” for Lodi residents;
- Create a new low-income senior home weatherization program;
- Implement a new industrial and large commercial rebate program process to encourage energy efficiency, while stretching rebate dollars to benefit more customers.
- Strive to read all meters on a monthly basis, thus reducing the need to “estimate” any routes.

ACTIVITY DESCRIPTION

The Electrical Engineering and Operations Division includes the management, supervision, training and support services for the Engineering and Operations Sections. Activity goals include: 1) planning for future growth; 2) designing an electric system that is cost effective, reliable, efficient and safe; 3) operating the City's utility systems in the most efficient and reliable manner; 4) restoring service as rapidly as possible following interruptions; 5) being responsive to customer constraints and project schedules; and 6) responding to calls and inquiries from customers and the public in a courteous, expedient and professional manner.

This activity has two major elements:

Engineering

Engineer, design and prepare plans, specifications, construction drawings and cost estimates. Collect and analyze data for design of projects and prepare written proposals. Prepare bid packages for construction projects, administer the bidding process and perform construction management, inspections and contract administration. Perform short and long range system planning to accommodate growth and annexations and to identify system modifications and improvements. Conduct power systems studies, simulation and contingency analysis. Provide and coordinate engineering services for developers, architects, project engineers, other utilities and other City Departments. Review building and development plans such as subdivision maps; parcel maps; off-site improvement plans and remodel/modification projects. Acquire encroachment permits, rights-of-ways and public utility easements. Respond to questions and provide consultation to staff and the public regarding applicable laws, codes, regulations and construction details. Provide necessary training. Develop, maintain and audit computer generated system maps, schematics and diagrams. Develop and maintain engineering, construction and metering specifications and drawings. Develop and maintain various standards and policies including engineering, construction and material standards, Rules and Regulations, and electric service and metering manuals. Conduct Electric and Magnetic Fields (EMF) and power quality audits. Establish the fiber optic infrastructure system and extend reliable communications as appropriate. Assist in the development of revenue-metering standards and specifications and review meter submittals in compliance with EUSERC requirements.

Operations (System Control and Dispatch)

Monitor, control and operate the Electric, Water/Wastewater and Storm Systems and dispatch personnel for all City operations, with the exception of Public Safety, on a 24 hours per day basis. Develop, maintain and implement load curtailment and rolling black out procedures as directed. Control and direct the service restoration process during periods of power interruptions. Call out and dispatch personnel for emergency service restorations. Maintain system maps, records and dispatch boards. Operate and program the System Control and Data Acquisition System (SCADA). Evaluate data received from SCADA. Implement proper corrective measures and prepare various associated reports. Prepare written switching procedures as well as various electric and water system operating reports. Respond to and/or reroute calls from the public. *(Note: The Operations activity is funded fifty percent (approximately) by the Public Works Department.)*

SIGNIFICANT EXPENDITURE AND STAFFING CHANGES

2006-2007: One Desktop and three Laptop Computers (\$6,000)

MAJOR 2005-06 ACCOMPLISHMENTS

- Completed Phase IV of Streetlight Completion Project with the installation of 267 streetlights and the conversion of streetlights West of Hutchins Street
- Installed the fiber optic system and the radial fiber optic feed to City Hall
- Constructed 60kV line extensions from Lower Sacramento Road & Kettleman to Harney and from Harney & Mills to WID Canal; Designed the Gateway to Westside Substation infrastructure and acquired 10 steel poles for 60kV line to future Westside Substation site
- Completed the ARC Flash Study for all substation facilities in compliance with OSHA, NEC, IEEE and NFPA rules
- Completed the oil Spill Prevention, Control and Countermeasure (SPCC) analysis as required by EPA
- Prepared engineering and design of future developments as: four residential subdivisions, digester plant, power supply to Chatfield Winery, ten commercial developments and 12kV line to White Slough Water Treatment Plant
- Completed the final phase of downtown reliability improvement project subsurface conversion of pad-mounted equipment
- Initiated the installation of AMR-Ready (Automated Meter Reading) solid state meters
- Updated the Streetlight Specifications to include material and installation requirements for various types of fixtures being used in new developments
- Relocated the Feline House for PALS in conjunction with the Henning Substation Driveway construction project
- Completed the installation and programming of the new System Control and Data Acquisition (SCADA) system
- Completed bid evaluation for the procurement of power transformers, reconstruction and 60kV power circuit breaker addition at Killelea Substation and Industrial Substation respectively; developed conceptual 'scaled-back' project for the reconstruction of Killelea Substation; accomplished the Initial Study for negative declaration and the hazardous material test and survey
- Finished the installation of lighting control for the parking structure at Pine Street
- Prepared conceptual interconnection design and initiated the system impact study (SIS) for the proposed 104MW Power Plant by CalPeak Power, LLC for interconnection to Industrial Substation
- Conceptualized 60kV interconnection layout of the 60kV loop to the proposed Westside Substation

MAJOR 2006-07 OBJECTIVES

- Deployment of computerized mapping system for use by troubleshooting personnel during power system outages and locating distribution system services equipment (pilot project for work force management system)
- Complete Grid A and commence Grid B for the streetlight grounding and fusing project
- Conduct initial environmental study and perimeter block wall design and engineering for Westside Substation
- Construct the Gateway-Westside Substation and the Henning-Westside Substation 60kV infrastructure; and, continue in acquiring ROW and easements for the Industrial-Westside 60kV line
- Connect fiber optic communication links between substation facilities & operations, and between City Departments, as appropriate; and, develop business plan for the future use of fiber optic system
- Evaluate and establish modifications to existing development fees, provisions of the City Blue Book, Rules and Regulations
- Replace the existing meter data acquisition services provider for large customer billing, Hunt Technologies, with Automated Energy, Inc; integrate the large customer billing determinants processing with the existing CIS System

- Reprogram billing meters to incorporate the new 'Daylight Saving Time' schedule as per Energy Policy Act 2005; replace existing non-supported Vectron meters with Itron TOU meters having Nertec communication modules for existing large customers
- Continue the installation of AMR-Ready solid state meters and acquire latest version of hand-held device for 'walk-by' meter reading
- Design and install new MSC emergency generator
- Reengineer, redesign, award contracts and acquire land for the of the 'scaled-back' construction project of Killelea Substation. Complete construction prior to summer 2007.
- Implement solutions from Arc Flash Study and Spill Prevention, Control & Countermeasure (SPCC) analysis: and establish corresponding personnel training programs.
- Improve security in the MSC Yard and substation facilities; procure and install new weather station cabinet
- Repair and expand control building and construct rear side block wall at McLane Substation
- Replace CRTs in Operations with flat screen monitors; remove old SCADA equipment and setup new SCADA system; and, convert communication link to fiber optic
- Implement furniture layout modifications for the Utility Operations Dispatch Center

ACTIVITY DESCRIPTION

The Electric Construction and Maintenance Division is responsible for the management, supervision, training and support services for electric system construction and maintenance activities including around-the-clock response to system customer electric problems. Supervision of the Department's Hazardous Material Handling element is provided through this section as well.

Activity goals are: 1) to maintain the transmission and distribution system in a safe, reliable and efficient operating condition; 2) to construct line extensions and other system improvements in a cost effective and efficient manner with a minimum of interruptions to existing customers; 3) to maintain staff trained on the latest techniques, practices and components utilized on electric distribution systems; 4) to provide efficient, courteous and expeditious response to customer and system electric problems; and 5) to maintain the Electric Substations and Electric Systems infrastructure in a quality manner at the least cost to the citizens of Lodi without jeopardizing safety of the public or City personnel.

This activity has eight major elements:

- **Construction:** Construct overhead and underground line extensions to serve new and additional loads to all customer classes. Construct system upgrades and expansions for capacity, reliability and operating flexibility; examples of which are transmission and main feeder lines, substation construction/expansion, and distribution system equipment to improve efficiency, system operation and service restoration. The wood utility pole replacement program is also included in this activity. There are 50 poles scheduled for replacement during fiscal year 2006-07. **(25% of activity)**
- **Maintenance:** Maintain 115 miles of overhead and 104.5 miles of underground 12 kV distribution lines as well as 12.6 miles of 60 kV transmission lines that includes periodic inspections, corrective work and record keeping. Repair and replacement of system components and the installation/maintenance of the City's Dusk to Dawn Lighting Program are included in this activity as well as "work for others" which includes customer requested system modifications and repair of equipment damage. **(19% of activity)**
- **Metering:** Install revenue-metering equipment at commercial and industrial facilities. Install and maintain remote meter reading equipment at larger commercial and industrial customers. Conduct periodic tests, calibration, circuit analysis and diagnostic evaluation for meter installations. Procure and maintain inventory of meters, instrument transformers, test switches, meter sockets and appurtenances. Investigate power diversion and vandalism cases along with metering/billing complaints. Install and maintain communication equipment for remote data retrieval, telephone data lines and "radio read" metering equipment. Provide customer service relative to energy usage and revenue meter equipment performance. Retrieve monthly meter load profile, load forecast, load duration curves, meter system abnormalities and failures. Implement the infrastructure for automatic meter reading (AMR) system. **(15% of activity)**
- **Customer Service:** Provide response to electric system and customer trouble. Locate underground facilities in response to requests by contractors, citizens, and others through Underground Service Alert. Obtain system data such as voltage and current readings.
- Connect/disconnect customers and set meters at new customer locations. Approximately 450 service calls, including 325 after hour calls, 2767 locating calls and 580 meter-sets are handled per year. **(13% of activity)**
- **Hazardous Material Handling:** Prepare utility wood poles treated with pentachlorophenol or Creosota for disposal at an approved disposal site. Prepare pole and padmounted transformers, switches and other electric apparatus for disposal. Dispose of used transformer oil. Disposal of approximately 50 wood poles for fiscal year 2006-07. **(4% of activity)**

PUBLIC UTILITIES

ACTIVITY: Construction and Maintenance
DEPARTMENT: Electric Utility

PROGRAM: Electric Services
FUND: Electric Fund

- **Streetlight Maintenance:** Maintain the 6,866 units of street and alley lighting. Respond to approximately 800 calls for service to the system per year. Electrical energy utilized by the lighting system is also included. **(5% of activity)**
- **Tree Trimming:** Provide line clearance for overhead power lines from trees. This element is performed via a private contractor supervised by Department staff. Approximately 50 miles of overhead line is cleared per year involving 4,500 trees. **(2% of activity-Department staff)**
- **Substations and Customer Support Services.** The Technical Service Section's technical personnel (Electrical Technicians) maintain all equipment in four 60/12 kV power substations. Calibrate and repair microprocessor based protective relays and data/control equipment. Perform regular scheduled maintenance on twenty four 60 kV power circuit breakers, forty three 12 kV power circuit breakers, and eight large power transformers. Install 60 kV and 12 kV circuit breakers, relays, panel boards and control systems. Install and maintain substation area lighting and intrusion alarm systems. Perform weekly substation inspections and document observed readings and deficiencies. Draw/update electrical and electronic drawings and schematics. Install, troubleshoot SCADA systems and data communication phone lines. Provide customer support services through power quality surveys, including harmonics analyzing, voltage recording and radio/television interference locating. **(17% of activity)**

MAJOR 2005-06 ACCOMPLISHMENTS

Several major projects were completed:

- Completed construction of the 60kV line for widening of Lower Sacramento Road.
- Completed the installation of the Fiber Optic system loop and the radial fiber optic feed to City Hall.
- Completed installing Fiber Optic apparatus in fiber optic building.
- Completed the installation of 60kV poles on Harney Lane.
- Completed installation of the underground system around Lowes.
- Completed extension of the underground system for subdivisions.
- Completed White Slough pole line project.

MAJOR 2006-07 OBJECTIVES

- 2006-07: Maintain the power substations and associated systems to the highest standards required by the industry using quality test equipment and trained staff.
- 2006-07: Promote safe work practices through education and implementation of safety rules generally used by the industry.
- 2006-07: Complete implementation of General Order 165 (underground and overhead inspection program).
2006-07: Maintain power line clearance (tree trimming) in compliance with the General Order 95 (tree trimming rules). As appropriate, orient new tree contractor to LEU's system and supervise their work.
- 2006-07: Implement a computerized program for GO165 inspection programs as mandated by the Public Utilities Commission.
- 2006-07: Replacement of painted streetlight standards with galvanized steel streetlight standard.
- 2006-07: Implement a spill prevention, control and counter measure plan (SPCC) update as mandated by the Federal E.P.A.
- 2006-07: Install ground wire in existing streetlight system.
- 2006-07: Install security equipment in the MSC yard.
- 2006-07: Extend electric system facilities to meet the electrical requirements of existing/new customers.

COMMUNITY AND ECONOMIC DEVELOPMENT

ACTIVITY: Engineering
DEPARTMENT: Public Works

PROGRAM: Construction Development
FUND: General Fund

ACTIVITY DESCRIPTION

The Engineering Division plans, designs and oversees construction of City streets, water, wastewater and drainage systems in conformance with the General Plan, Capital Improvement Budget and development policies; and, provides engineering services for many other City departments and special projects. The Division provides direct staff support for the water service utility including three staff members who are funded directly by utility funds. The Division provides long-range master planning for most City infrastructure. Traffic engineering, including response to citizen requests for service and management of the public right-of-way through the Encroachment Permit process are also significant portions of the Division's activities. Support functions include construction drawing and records management, mapping and Geographic Information System maintenance and development; surveying and cost estimating.

GENERAL GOVERNMENT

ACTIVITY: Fleet Services and Motor Pool **PROGRAM:** Organization Support Services
DEPARTMENT: Public Works **FUND:** General Fund

ACTIVITY DESCRIPTION

The Fleet Services Section maintains a fleet of approximately 420 vehicles and equipment, serving the entire City fleet except Parks and Recreation's mowing equipment and scooters. Included are repairs to vehicles and equipment of all types and sizes; managing the parts inventory; troubleshooting and repair of mechanical operation problems in electric, hydraulic, and mechanical systems; welding/fabricating projects; providing preventative maintenance to all vehicles and equipment; overseeing the fleet management system and software; preparing vehicle purchase specifications; coordinating the City Fleet Committee and supervising contract labor and outside vendors.

In FY06/07, the total cost of this activity is being converted to an internal service fund in which costs for vehicles and maintenance will be allocated to individual departmental activities.

ACTIVITY: Water Services Division
DEPARTMENT: Public Works
PROGRAM: Water & Wastewater Service
FUND: Water & Wastewater Funds

ACTIVITY DESCRIPTION

The Water Services Division provides potable water to approximately 23,000 residential, commercial and industrial customers; and, provides water for adequate fire flows and pressures to fire hydrants, private fire suppression systems and private on-site hydrants. Following these potable water uses, the utility manages all wastewater including domestic industrial and runoff flows from the City's three separate collection systems. Most Division staff works in nearly all aspects of these activities and costs are allocated based on actual time and materials.

The Division performs pipeline and facility maintenance work through a combination of City staff and contractors. Division staff works extensively with State and regulators and is supported by Public Works engineering and administration staff and a variety of engineering consultants.

ACTIVITY: Street Cleaning
DEPARTMENT: Public Works

PROGRAM: Streets and Flood Control
FUND: Street Fund

ACTIVITY DESCRIPTION

The Street Cleaning activity provides for sweeping of City streets, alleys, and parking lots, removal of leaves during leaf season, weed abatement, and landscape maintenance of Public Works facilities. The activity goals are: 1) to ensure streets are clean and free of debris; and 2) landscaped areas are well maintained. This activity has five major elements:

Street Sweeping. Sweep approximately 26,120 curb miles, 16 miles of alleys, and 19 public parking lots on the following schedule: Downtown area three times a week, arterials once a week, all other streets twice a month, alleys and parking lots monthly or as needed, and State Highway 12 weekly, Highway 99 on-ramps at Kettleman Lane and Turner Road monthly per agreement with Caltrans **(37 percent of the activity)**.

Leaf Removal. Removing approximately 7,000 cubic yards of leaves placed in the street right-of-way during leaf season (November through January) on a 10-day frequency **(25 percent of the activity)**.

Downtown Cleanup. The primary responsibility is over-all appearance of the Downtown area. This includes cleaning the sidewalk areas, emptying the trash containers, maintaining the tree wells, quarterly planting of flowers in City planters, repairing street furniture such as benches, monitoring the alleys and parking lots for trash, debris and weeds **(5 percent of activity)**.

Landscape Maintenance. Providing landscape maintenance of 207 sites, which is 43.1 acres of Public Works maintained landscaped grounds. Of those 207 sites there are three Electric Utility facilities, three Fire facilities, the Library, and providing repair and maintenance of all the irrigation systems **(30 percent of the activity)**.

Weed Abatement. Spraying weeds with herbicide and removing weeds and other debris along street shoulders, alleys and within 2.6 miles of street medians **(3 percent of the activity)**.

*Activity percentages are based on the operating budget

SIGNIFICANT EXPENDITURE AND STAFFING CHANGES

1. Increase the Landscape Maintenance funding by \$ 5,000. However, the level of service had to be significantly to keep the cost increase to that amount.
2. Temporary reduction (6 month) of Maintenance Worker II Plamondon Step B (Military Leave \$29,800 salary & benefits).
3. Reduction of Downtown Cleanup effort by 50%. (\$36,860 salary & benefits). Merge position with Graffiti Abatement.

MAJOR ACCOMPLISHMENTS

The addition of several large landscape sites are planned during this budget period:

- Lower Sacramento Road median from Kettelman to Harney
- Additional medians on Kettelman Lane at the Gap Closure locations
- Implementation of maintenance of Lodi Consolidated Landscape District 2003-1, five new zones

MAJOR OBJECTIVES

2005-06: Additional landscape site coming on board for maintenance

- Woodhaven Lane by Wine and Roses
- Lodi Consolidated Landscape District 2003-1, additional zones at Harney and S. Cherokee Lane

ACTIVITY DESCRIPTION

The Administrative Budget unit of the Community Center is responsible for overall administration and management of the Square. In addition, this budget unit handles rental of facilities, coordination and support of the Hutchins Street Square Foundation, marketing and public outreach, promoting expansion of activities and revenues and administrative support for other units within the Department.

The accomplishments and activities of the various divisions of the Community Center are shown in the succeeding pages.

A major emphasis for the Community Center is to continue to pursue opportunities for additional revenue growth while continuing the mission of being the premier location in Lodi for arts and cultural activities. For each budget unit that has significant revenues attached to it, those revenues are shown in the description. The revenues attached specifically to this budget unit include the revenues from the rentals of facilities (except the performing arts theatre) and the donation from the Hutchins Street Square Foundation reimbursing for the half time Administrative Secretary.

ACTIVITY DESCRIPTION

Serving as a focal point in the community, the Senior Information Center at Hutchins Street Square offers local seniors and their families access to programs and services related to the needs of the aging. The Senior Center maintains an open phone line, to answer the concerns of Lodi's older population.

The Health Insurance Counseling and Advocacy Program (HICAP) operates out of the Senior Center and it's volunteers assist seniors with Medicare and related health insurance issues. This is the sole HICAP outlet in San Joaquin County.

The Center Coordinates a variety of support groups and serves as a base for the San Joaquin Peer Counseling Program, which is a volunteer counseling service.

In cooperation with Delta College a painting class is offered for seniors. In cooperation with the Lodi Adult School the Center offers Senior Computer classes. Our computer lab with 15 state-of-the-art computers enrolls an average of 75 students each five (5) weeks.

The Senior Center provides State Volunteer Income Tax Assistance (VITA) volunteers who help seniors with income tax assistance at no charge. Legal service through the Department of Aging is offered to Lodi's Seniors free of charge. Also provided, assistance using a variety of forms and applications for seniors in need.

A variety of social and recreational opportunities are available as well as regular health screenings in cooperation with Lodi Memorial Hospital.

Overall administration is provided by the Senior Services Coordinator with assistance of one part-time administrative clerk and 50 volunteers.

ACTIVITY: Information Systems
DEPARTMENT: Administration

PROGRAM: Administrative Services
FUND: General Fund

ACTIVITY DESCRIPTION

The Information Systems Division (ISD) activity centers on the City's goal to 'Enhance Access to Information' and the organization's increasing dependency upon accurate, timely information. High availability of needed information translates into faster, more accurate decisions. This leads to increased efficiencies and decreased organization-wide costs. Its main functions are to develop, plan and coordinate the City's information systems. Information systems consists of personal computers, Local and Wide-Area Networks (LAN and WAN), Internet and Intranet, computer software, telephone and wireless communications, telecom wiring infrastructure, and radio equipment. ISD also provides ongoing centralized data processing and information access services and support for City Departments; provides advice and assistance to staff on the use, application and operation of central computer systems; advises and assists staff in the utilization of applications and/or purchase of "canned" programs and applications; and, maintains and operates the City's mid-range computer.

Activity goals include: 1) long-range policies and standards for acquiring, maintaining and replacing equipment and software; and 2) responsive and on-going support and training for computer equipment and software, telephones, and other miscellaneous equipment., 3) provide efficient, effective and responsive service; 4) maintain current programs and applications at levels necessary to conduct operations; 5) assist staff in improving productivity through data processing and information systems; and 6) maintain operations 24 hours per day. This activity has three major elements:

- **Policies and standards.** Develop, implement and manage Information System policies, standards, and specifications for computer hardware and software acquisition, maintenance, and replacement (15 percent of the activity).
- **System development and support.** Provide for system development, on-going maintenance of equipment, and training of personnel to ensure full utilization of equipment and software. Maintain and operate system applications (payroll, accounting, etc.) in support of City departments; maintain and operate general support applications (word processing, spreadsheet, etc.) in support of City departments; and, maintain and operate peripheral equipment; maintain central computers; provide backup and recovery support; repair and replace defective equipment; monitor and analyze uses of storage and operating capacity; and, recommend and advise on expanding hardware and software capacity; enhance, design and implement systems and programs to meet user needs; correct, adjust and update defective applications; advise and assist users to update applications; and, assist and advise users with changing application technology (45 percent of the activity).
- **Systems and equipment.** Manage, maintain and support City equipment and systems including telephone, PCs, voice-mail, call accounting, radio and wireless communications systems, LAN/WAN systems (40 percent of the activity).

STAFFING SUMMARY

Staffing support provided by Human Resources Department

CHANGES

Historically, it has been very rare for benefits rates to decrease. All benefits expenditures are projected to either remain constant or increase. The greatest share of increase is attributable to medical expenditures for current employees and retirees. The City's relatively high usage of Long Term Disability insurance is expected to continue to place upward pressure on rates. Vision Care expenditures are expected to drop now that a single tier rate structure is in place.

GENERAL GOVERNMENT

ACTIVITY: Risk Management
DEPARTMENT: Internal Services

PROGRAM: Administrative Services
FUND: General Fund

ACTIVITY DESCRIPTION

The Risk Management activity identifies loss exposures in the City, develops loss control techniques designed to prevent or control expenditures that could result from those exposures, and monitors the effectiveness of selected loss control techniques. Activity goals are: 1) identify exposures to loss; 2) develop and manage programs to reduce the frequency and severity of loss; 3) ensure appropriate and adequate risk financing; and 4) obtain recovery or indemnification for losses that do occur. The Risk Management activity is comprised of the following components:

- **General Liability:** Receive and review all claims against the City; manage claim investigations with the City's third party administrator and appropriate City staff; determine liability and pursue appropriate action; and identify the causes of claims (exposures) to develop appropriate loss prevention and control techniques **(20 percent of the activity)**.
- **Property Loss:** Evaluate property exposures and develop appropriate loss prevention and control techniques; determine appropriate loss financing; and obtain indemnification and reimbursements when applicable **(10 percent of the activity)**.
- **Workers' Compensation:** Receive and review all claims against the City; manage claim investigations with the City's third party administrator and appropriate City staff; determine liability and pursue appropriate action; and identify the causes of claims (exposures) to develop appropriate loss prevention and control techniques **(50 percent of the activity)**.
- **Injury and Illness Prevention:** Chair Safety Committee and manage its activities including identification and mitigation of workplace risks, implementation of a safety incentive program, and review of injury accidents to assess causes and recommend preventative measures. This component also ensures compliance with OSHA regulations; coordinates training in safe work practices; and conducts health and wellness education **(10 percent of the activity)**.
- **Risk Financing:** Identify and evaluate alternatives for financing accidental losses; select, implement and monitor appropriate retentions, transfer financing and contractual risk transfer techniques; participate as a member of the boards of joint powers authorities; obtain indemnification agreements; and review, evaluate and approve certificates of insurance as evidence of the transfer of risk and contractual risk transfers **(10 percent of the activity)**.

ACTIVITY DESCRIPTION

The City Attorney reviews, monitors and evaluates the conduct of City activities for conformance with laws, regulations, policies and rules; represents the City in civil litigation; and ensures that violators of City laws are prosecuted. Activity goals are: 1) reduce the City's liability exposure; and, 2) provide timely and complete legal advice and services. This activity has five major elements:

- **Legal review and advice.** Review Ordinances, Resolutions, contracts and advise on employment issues **(25 percent of the activity)**.
- **Advise and assist the City Council.** Orient new Council Members on the services and functions of the City Attorney's Office; advise and assist the City Council and staff with suggested and existing legislation, policies and regulations; process citizen requests; anticipate problems; and, assist in resolving conflict **(10 percent of the activity)**.
- **Legal representation.** Represent the City at Council meetings; defend the City against litigation and claims; and, represent the City with other government agencies **(45 percent of the activity)**.
- **Document preparation.** Prepare Ordinances, Resolutions, contracts, legal pleadings, reports, correspondence and other legal documents **(10 percent of the activity)**.
- **Enforcement.** Enforce and prosecute violations of the Municipal Code **(10 percent of the activity)**.

ACTIVITY DESCRIPTION

The General Liability activity performs adjustment and settlement of claims filed against the City by third parties who have sustained losses to person and/or property. The activity also ensures appropriate risk financing through maintenance of a reserve fund to pay retained losses, participation in a joint powers liability insurance pool for losses in excess of the retention (CJPRMA), and participation in an insurance pool for liability and physical damage coverage relative to the City's transit operations (CalTIP). Activity goals are to: 1) administer claims efficiently; 2) evaluate causes of claims and take appropriate preventative and loss reduction measures; and 3) protect the City's financial resources by ensuring appropriate funding for retained losses, and through the transfer of risk financing. This activity has the following three major components:

- **Claims Administration:** Claims are adjusted by a third party administrator (TPA) under the direction of the Risk Manager. Some smaller claims administration is conducted in-house **(60 percent of the activity)**.
- **Excess Insurance:** The City is a member of a liability insurance pool entitled the California Joint Powers Risk Management Authority (CJPRMA). CJPRMA provides \$39.5 million of coverage in excess of the City's self-insured retention (SIR) of \$500,000 **(30 percent of the activity)**.
- **Transit Insurance:** The City is a member of a liability and property damage insurance pool entitled the California Transit Insurance Pool (CalTIP). Through CalTIP, the City has \$20 million in liability first dollar coverage, and has physical damage coverage for the value of the vehicle with \$500 and \$5,000 deductibles depending upon the vehicle. Funding for transit insurance comes from Federal Transit Authority grants **(10 percent of the activity)**.

STAFFING SUMMARY

Staffing by Risk Manager with clerical support and support from the Transportation Manager.

GENERAL GOVERNMENT

ACTIVITY: General Liability
DEPARTMENT: Internal Services

PROGRAM:
FUND: Self-Insurance Fund

CHANGES

The 2006-07 request is greater than the 2005-06 budgeted amount. This balances perfectly the reduced request for workers compensation activity in 2006-07. The net increase in both activities is therefore zero. A greater share was deemed necessary for general liability activity in 2006-07.

MAJOR ACCOMPLISHMENTS

- Administered 43 new General Liability claims.
- Processed 2,600 certificates of insurance.
- As of May 2006, there are only five open Transit claims – none of which occurred prior to FY 2002-03.

ACTIVITY: Workers' Compensation
DEPARTMENT: Internal Services

PROGRAM:
FUND: Self-Insurance Fund

ACTIVITY DESCRIPTION

The Workers Compensation activity manages claims due to industrially caused injuries and illnesses. This activity performs appropriate claims adjustment and settlement, ensures appropriate risk financing through the maintenance of a reserve fund to pay retained losses, and participates in a joint powers insurance pool (LAWCX) for losses in excess of the retention. Activity goals are to: 1) restore injured workers to full and productive capacity; 2) ensure the rights of injured workers are protected in accordance with applicable State and Federal laws; 3) administer claims in a manner which minimizes cost and disruption for both the employee and the City; and 4) ensure appropriate funding for the self-insured retention and participate in management of the insurance pool for losses in excess of the retention. This activity has the following two major elements:

- **Claims Administration:** Claims are filed and managed in Human Resources and adjusted by a third party administrator (TPA) under the direction of the Risk Manager **(90 percent of the activity)**.
- **Excess Insurance:** The City is a member of an insurance pool entitled the Local Agency Workers' Compensation Excess Joint Powers Authority (LAWCX). LAWCX provides \$39.75 million of coverage in excess of the City's self-insured retention (SIR) of \$250,000 **(10 percent of the activity)**.

STAFFING SUMMARY

Staffing by Risk Manager with clerical support and support from the Transportation Manager.

The 2006-07 request is less than the 2005-06 budgeted amount. This balances perfectly the increased request for general liability activity in 2006-07. The net increase in both activities is therefore zero. A smaller share was deemed necessary for workers compensation activity in 2006-07.

MAJOR ACCOMPLISHMENTS

- Selected new third party administrator – Bragg & Associates
- Administered 114 open Workers Compensation claims - 68 existing and 46 new claims (a reduction of 23% relative to last year).
- Organized on-site wellness fair with Dameron Hospital for all City employees.

GENERAL GOVERNMENT

ACTIVITY: Other Insurance
DEPARTMENT: Internal Services

PROGRAM:
FUND: Self-Insurance Fund

ACTIVITY DESCRIPTION

The Other Insurance activity transfers the financing for accidental losses of real or personal City property. The activity goal is to ensure adequate and appropriate funding for these losses. Lines of coverage include the following:

- **Property insurance:** Up to \$300 million coverage from losses to buildings, their contents and property in the open. Coverage is not available for loss due to earthquake or flood.
- **Boiler and Machinery insurance:** Up to \$15 million in coverage from losses to HVAC systems, pumps and machinery for water distribution and wastewater collection/treatment (including White Slough), and electrical substations and transformers).
- **Automobile Insurance:** Coverage for property losses to City vehicles valued greater than \$25,000.
- **Special Event insurance:** Up to \$10 million in liability and property insurance purchased for special events involving the use of City facilities, or conducted on City property and/or public right-of-ways (reimbursed by the event sponsor).
- **Commercial Crime Policy:** Protects the City from malfeasance by designated employees .

STAFFING SUMMARY

This activity is staffed by Human Resources.

CHANGES

- Boiler & Machinery insurance costs were reduced significantly. Savings were realized through the use of the same insurance carrier, but the policy is now obtained through the group purchasing capacity of CJPRMA. Property insurance costs have risen significantly due to the addition of the new Police Facility, Tertiary Filtration Complex, rate increases and overall increases in value of City facilities.
